Application No.: 10/807,746 Docket No.: 28335/39196A

AMENDMENT TO THE CLAIMS

1. (withdrawn) An isolated polynucleotide comprising a nucleotide sequence of any one of SEQ ID NO: 1, SEQ ID NO: 2, SEQ ID NO: 3, SEQ ID NO: 4, SEQ ID NO: 5, SEQ ID NO: 6 or SEQ ID NO: 40.

- 2. (withdrawn) An isolated polynucleotide comprising a nucleotide sequence encoding an amino acid sequence of any one SEQ ID NO: 7, SEQ ID NO: 8, SEQ ID NO: 9, SEQ ID NO: 10, SEQ ID NO: 11, SEQ ID NO: 12, or SEQ ID NO: 41.
- 3. (currently amended) An isolated polypeptide comprising an amino acid sequence encoded by a nucleotide sequence of claim-1 SEQ ID NO: 1 or a fragment thereof.
- 4. (currently amended) An isolated polypeptide comprising an amino acid sequence of any one SEQ ID NO: 7.
- 5. (currently amended) A composition comprising a polypeptide of claim <u>3 or 4</u> or <u>5</u> and a pharmaceutically acceptable carrier.
- 6. (withdrawn) An antibody that specifically binds to a polypeptide of claim 4 or 5 or fragment thereof.
- 7. (withdrawn) A composition comprising an antibody of claim 8 and a pharmaceutically acceptable carrier.
- 8. (withdrawn) A method for detecting NTHi bacteria in a biological sample comprising
- (a) contacting a polynucleotide of claim 1 or a fragment thereof with a biological sample, and
 - (b) detecting hybridization of the polynucleotide within the sample.
- 9. (withdrawn) A method for detecting NTHi bacteria in a biological sample comprising
- (a) contacting a polynucleotide of claim 2 or a fragment thereof with a biological sample, and

Application No.: 10/807,746 Docket No.: 28335/39196A

- (b) detecting hybridization of the polynucleotide within the sample.
- 10. (withdrawn) A method for detecting NTHi bacteria in a biological sample comprising:
 - (a) contacting an antibody of claim 7 with a biological sample, and
 - (b) detecting binding of the antibody within the sample.
- 11. (withdrawn) The method of any one of claims 9-11 wherein the biological sample is selected from the group consisting of serum, sputum, ear fluid, blood, urine, lymphatic fluid, and cerebrospinal fluid.
- 12. (withdrawn) A method for eliciting an immune response to NTHi bacteria comprising administering an immunogenic dose of a polypeptide of claim 4 or 5 or a fragment thereof to a patient at risk of NTHi bacterial infection.
- 13. (withdrawn) A method of treating or preventing NTHi bacterial infection comprising administering a molecule that inhibits expression or activity of a polypeptide of claim 4 or 5 to an patient in need.
- 14. (withdrawn)The method of claim 14 wherein the molecule administered to the patient in need is an antisense oligonucleotide.
- 15. (withdrawn)The method of claim 14 wherein the molecule administered to the patient in need is an antibody.
- 16. (withdrawn) The method of claim 14 wherein the molecule administered to the patient in need is a small molecule.
- 17. (withdrawn) The method of claims 14 wherein the NTHi infection is in the middle ear.
- 18. (withdrawn) A method of modulating virulence of a NTHi bacterium comprising mutating genes within the *sap* operon wherein the mutation increases sensitivity to antimicrobial agents.
